

2022 TAC Technical Achievement Award

Each year, TAC recognizes exceptional contributions made by member organizations through its Technical Achievement Awards, which highlight innovations, best practices, and lessons learned in the execution of real-life projects.

The Transportation Association of Canada (TAC) is a not-for-profit, national technical association that focusses on road and highway infrastructure and urban transportation. Our mission is to work together to share ideas, build knowledge, promote best practices, foster leadership, and encourage bold transportation solutions.

About TAC Technology Achievement Award

This Award recognizes initiatives that demonstrate excellence in the use of advanced technologies to address road, highway or urban transportation challenges.

Evaluation criteria

- **Outcomes** – The initiative has resulted in improved transportation system performance with associated social, economic or environmental benefits.
- **Innovation** – The initiative involves technologies that are innovative within a Canadian context, in areas such as intelligent transportation systems, connected and automated vehicles, digital twinning, or data and analytics.
- **Transferability** -The initiative is relevant to transportation challenges in other jurisdictions, and offers lessons that can be applied elsewhere.

Winner

Road Maintenance Innovation

Regional Municipality of Durham, Ontario
In partnership with **Visual Defence Inc.**

Presenter: Eric Lamain

Finalists
